

Joint Action on integrating prevention, testing and linkage to care strategies across HIV, viral hepatitis, TB and STIs in Europe

HepHIV 2019
28-30 JANUARY · BUCHAREST

SPONSORSHIP BROCHURE

Joint Action on integrating prevention, testing and linkage to care strategies across HIV, viral hepatitis, TB and STIs in Europe

The sixth biennial HepHIV conference will take place 29-30 January 2019 at Athénée Palace Hilton in Bucharest, Romania. The conference is organised by HIV in Europe and this time jointly with the 3-year EU funded joint action INTEGRATE (2018-2020, www.integrateja.eu).

There is increasing interest in the outcomes from this conference and are widely attended by clinicians, researchers, civil society and other stakeholders throughout Europe – the expected number of participants is 250-300 people.

The conference will bring together the fields of viral hepatitis and HIV to exchange knowledge and experiences and to discuss challenges and solutions especially in relation to undiagnosed cases, testing and linkage to care.

The conference will also stimulate political discussions, provide opportunities for multi-stakeholder dialogue and increase knowledge of the public health concerns associated with these epidemics.

Outcomes from the HepHIV 2017 conference in Malta were recently published in HIV Medicine and can be found [here](#).

1. Increase brand awareness by sponsoring the conference

2. Show your brand's strength to your competition

3. Increase product visibility to our international audience

4. Present yourself as a leading player in the fight against HIV/AIDS and Hepatitis

SPONSORSHIP CATEGORIES

| | |
|-----------------|----------------------------|
